Поле Вашого успіху!

**Інформаційно-рекламний всеукраїнський аграрний проект –
журнал «AgroLux» А4 формат.**

Видання пропонує огляди сільськогосподарської та аграрної галузей України, репортажі з заходів.

Поширюється на спеціалізованих виставках, Днях поля,

Семінарах та Конференціях, Форуммах, АПК.

Електронна версія журналу розсилається на **25 тис.** електронних адрес України.

Поштова розсилка по підписці через Укрпошту та Нову Пошту.

Цільова аудиторія: КХП, елеватори, фермери, сільгосп-управління, підприємства і фірми, що працюють в сфері АПК по всіх регіонах України.

Prof

ПРОФЕСІЙНО ПРО БУДІВНИЦТВО

Build

profbuild.in.ua

Мета журналу:

Висвітлити актуальну інформацію про будівництво і нерухомість України та інших країн світу, ознайомити читацьку аудиторію з новими технологіями, матеріалами та послугами в будівництві; привернути увагу до проблем будівельної галузі, разом із провідними фахівцями знайти шляхи їх вирішення; розповісти про діяльність компаній, що працюють на будівельному ринку, та про найцікавіші події будівельного світу.

Публікації в **Prof Build** - це змога в доступному форматі використовувати можливість спілкування зі своєю цільовою аудиторією.

mob.: +38 050 331 28 97

e-mail: f.techno@ukr.net

www.ftechno.com.ua

F.Technology is a full range of metalworking equipment.

Hello everyone,

We are the team of specialists in metalworking equipment with more than 20 years of relevant experience. Out of the desire for development and having the opportunity to share the acquired knowledge, we created the company F.Technology.

Over the years of successful collaboration with various segments of the industrial market, we have identified the main points that influence the quality of customer service. Those unfortunately are most often forgotten in many companies as they are focusing on the most profitable contracts. F.Technology's team strives to be as client-oriented as possible and has built its work based on the following criteria:

- Economic benefit for customers. We optimized our costs as much as possible, so we can guarantee the best equipment pricing. We do not sell either cheap or expensive equipment – instead we supply an optimal solution for any client's specific task. The best advertising for us is our satisfied customers! Our image is completed orders! Our aspiration is to build long-term relationships with the clients.
- Full attention. Every customer and every delivery is important to us, there is no such thing as small orders.
- Efficiency and convenience. We are always in touch, so we will quickly process your order, arrange a meeting or conduct a technical audit of your production.
- Execution of specialized orders. We are not limited to our catalog and supply almost the entire range of equipment for metal processing.
- Reliability. We are responsible for warranty service, product quality and delivery times, cooperating only with trusted global manufacturers and partners. Therefore we can always guarantee the proper execution of the order. Our activity is confirmed by our providers' certificates.

INTERNATIONAL INDUSTRIAL FORUM

INTERNATIONAL TRADE FAIRS

PLAST EXPO UA | ADDIT EXPO 3D

- Creativity. We have an up-to-date approach to solving problems and therefore we are ready to implement the most adaptive and optimal solution.
- Innovativeness. Technologies are changing and improving, progress does not stand still — we offer you to change your production in step with the times, using our knowledge and experience.

Please your production with good equipment together with F.Technology!

The range of finished products includes more than 30 different types of polymeric materials and composites adapted for high-quality FDM 3D printing. The company carries out a full cycle of production of composite materials and materials for additive manufacturing. It has its own research and development laboratory.

MOTORIMPEX LLC

94b Kyrhyzska Str., UA-61105 Kharkiv, Ukraine

tel.: +38 057 341 80 95

mob.: +38 095 000 30 10, 097 085 80 80

e-mail: m-impex@motorimpex.ua

www.motorimpex.ua

We design and manufacture hydraulic, lubrication, and pneumatic systems. In our work, we use components from the best European manufacturers, whose quality and reliability have stood the test of time. Our customers come to us when they need:

- 1) a hydraulic system customized to their individual needs;
- 2) modernization of an existing hydraulic system;
- 3) selection of components for designing a new hydraulic system;
- 4) replacement of components when they fail on existing equipment.

We produce both serially and individually: hydraulic power units, testing benches with automation and control systems, hydraulic manifolds, hydraulic cylinders, filtering and filling stations, automatic lubrication systems, high-pressure hoses, and many additional components.

MR LLC

2 Mykhaila Maksymovycha Str., UA-03022 Kyiv, Ukraine

tel.: +38 044 501 67 64

e-mail: contact@mr.ua

www.mr.ua

Today MR is a modern metal processing company. More than 100 high-skilled employees work in the 3,500 m² production facility. We ship more than 100,000 kg of finished products to our customers every month. The equipment fleet includes 11 heavy CNC machines and many others. We have everything to fulfill orders of any complexity — from small individual parts to complex metal structures. Investing in new technologies helps us to provide our clients with the most advanced solutions for their needs. The business strategy we have chosen is based on long-term cooperation. Our clients know us as a reliable partner.

NATIONAL TECHNICAL UNIVERSITY OF UKRAINE IGOR SIKORSKY KYIV POLYTECHNIC INSTITUTE

37 Beresteisky Ave. (Peremohy), app. 1-130,

The first in Ukraine (since 1996) periodical professional magazine for manufacturers and consumers of packaging, packaging materials and equipment is produced by a team of experienced authors and editors. Magazine about key trends in the development of packaging markets, innovative materials, packaging, technologies and equipment development.

Mission — to provide indispensable intelligence on packaging innovation, to people looking to solve business problems through smarter packaging strategies. To make sense of the array of technologies and trade-offs.

Distribution- by subscription, targeted mailing, during exhibitions.

Annual events:

- conference Packaging industry;
- all-Ukrainian competition Ukrainian packaging star, Ukrainian label, Packaging of the future;
- conference of Young Scientists New packaging technologies;
- competition for students' scientific works Golden chestnut.

B2B professional search portal www.packinfo.com.ua since 2014. With a quick and easy free search, a clear interface, you will get a list of companies and their coordinates to order the required packaging products: raw and packaging materials, packaging, equipment, various services.

Our specialists are always open to those who are concerned about the problems of development of the packaging industry of Ukraine.

Welcome.

PATON INTERNATIONAL LLC

66 Novopyrohivska Str., UA-03045 Kyiv, Ukraine

tel./fax: +380 44 259 40 00

e-mail: office@paton.ua

www.paton.ua

The company PATON INTERNATIONAL is a leading Ukrainian manufacturer of welding equipment equipment and materials, and also occupies a leading position among manufacturers of this direction in the territory of Eastern European countries.

Today, thanks to its own R&D center and production, the company manufactures more than 60 models of welding equipment, as well as a wide range of welding materials:

- inverters for manual arc welding (from 150A to 630A);
- semi-automatic welding machines (from 150A to 630A);
- argon arc inverters (from 200A to 350A);
- devices for air-plasma cutting (from 40 to 100A);
- multifunctional digital inverters (from 250A to 350A);
- welding electrodes;
- welding wire.

The PATON INTERNATIONAL company has its own design and technological base and production facilities, equipped with high-quality equipment for the development, production and testing of new models of welding equipment and materials, the analogues of which do not exist in Ukraine.

Thanks to more than 60 years of experience in the market, a wide range and high product quality, the PATON brand meets the needs of a wide range of consumers — from beginners to professional welders both in Ukraine and in more than 50 countries around the world.

Shef-Montag Company is a Ukrainian leader in complex rigging arrangements and installation of technological equipment.

The engineers are experienced in carrying out turnkey projects of complex installation in almost all industries.

The main activities of the Company:

- installation of technological equipment;
- disassembly of industrial equipment;
- SKD assembly;
- heavy cargo movement;
- relocation of plants and facilities.

Our services include turnkey solutions for the customer: from the development of design solutions to the professional and prompt execution of the project.

SKLADSKA TECHNIKA TRADING HOUSE, LTD

17B Liniyna Str., UA-03038 Kyiv, Ukraine

tel.: +38 044 528 02 80

fax: +38 044 528 30 05

e-mail: skladtex.ua@gmail.com

www.skladtex.com.ua, www.blickle.com.ua

The direction of our activity is production and sale of wheelbarrows, industrial wheels, storage containers, mobile ladders and other metal products.

Since 2001, we have been the exclusive representative of Blicke (Germany) in Ukraine — the world's leading manufacturer of wheels and rollers, which products are known, appreciated and used by Ukrainian consumer constantly.

The nomenclature amounts to 30 thousand wheel models, and satisfies the most demanding customers with their technical parameters, and the possibility of implementation in media at different temperatures, in aggressive and humid media.

For the Ukrainian market, we produce hand trucks of different purposes, which nomenclature numbers up to 200 types, with load-carrying capacity from 30 kg to 15 tons. We constantly improve our products, expand the nomenclature, and perform custom design.

We also offer for sale the foreign hydraulic carrying and lifting equipment: hydraulic trucks, stackers, and lifting tables.

Intensive development of large scale trade led us to manufacture products for supermarkets — we have mastered the manufacture of reticular mobile containers, mobile ladders for high-level shelves, special carts, stands, presentation tables etc.

Today, TH Skladska Tekhnika Ltd also offers industrial fastening accessories of Frigerio (Italy) and Ukrainian production for quick fixing of building and assembly constructions, for the manufacture of special assemblies, mechanisms and containers, including storage containers — boxes. It is the tension locks, handles, captive hinges, angles (bindings).

One of the new directions of the company activity is development and manufacture of bicycle parking facilities of various design, which are so topical now.

We have our own warehouses with sufficient stocks of finished products; new orders are carried out in 2-3 weeks; we deliver the goods to all regions of Ukraine.

For more details as for activities and products of TH Skladaska Tekhnika Ltd, please, visit our showroom and our websites www.skladtex.com.ua, and www.blickle.com.ua.

Our partners are metalworking companies well-known all over the world, such as PRIMA POWER (Italy, Finland), UKB (Germany), WILSON TOOL (United Kingdom, USA), TP Tooling (Italy), TIMESAVER (Netherlands), CoastOne (Finland), NIBBLER (Sweden).

TRIADA-WELDING

4 Tsentralnyi Blvd., UA- 69005 Zaporizhzhia, Ukraine

mob.: +38 067 333 10 58, 050 322 95 53

Office in Kyiv:

25a Syretska Str., UA-04073 Kyiv, Ukraine

e-mail: sales@triada-welding.com

www.triada-welding.com

The enterprise was founded in 1992. Triada-Welding is an engineering company, the system integrator of robotic complexes. The company specializes in providing engineering and technical services, design of technologies related to the development and formation of various welding productions. Main areas of activities:

- engineering;
- technologies of welding processes;
- additive, 3D-technologies;
- outsourcing;
- robotization of welding processes;
- supply of welding equipment and materials;
- production of welding protection systems;
- design and manufacture of welding equipment and conductors;
- training and R&D.

29-year production experience, high technical and professional level of Triada specialists are key factors enabling to successfully solve problems of any complexity in the field of design, engineering, development of welding technologies, integration and launch of robotic welding complexes. The company guarantees reliability and quality of the projects on welding processes robotization. It has gained absolute trust and mutual understanding of the customers. The company has implemented many projects on applying unique engineering solutions, designing welding technologies, integrating robotic systems into production, both in Ukraine and abroad.

THE COMPANY'S MISSION:

We make the world more technological by creating smart productions. Studying the problems of welding productions, Triada-Welding has created its own production and technical centre with a complete diagnostic base for the study of additive 3D printing technologies. The company conducts researches in this area.

Triada-Welding engineering company is a member of the Ukrainian CCI, a member of the Society of Welders of Ukraine. It regularly takes part

in technical exhibitions, conferences and workshops. The company also cooperates with the Department of Welding Production Technology and Equipment of Zaporizhzhia Polytechnic National University, as well as collaborates with other higher and secondary special educational institutions. It holds scientific and technical conferences for students based at its technical centre.

The company is a member of Zaporizhzhia EAM (EngineeringAutomation-Mechanical Engineering) cluster.

Triada-Welding is always ready for mutually beneficial cooperation in the field of welding.

Triada-Welding is the official distributor of LINCOLN ELECTRIC TURKEY, which manufactures welding materials under the ASKAYNAK and LINCOLN ELECTRIC brands.

Welding materials have the following certificates:

- ABS (American Bureau of Shipping).
- BV (Bureau Veritas).
- DNV (Det Norske Veritas).
- GL (Germanischer Lloyd).
- Lloyds Register of Shipping.
- RINA (Registro Italiano Navale).
- RMRS (Russian Maritime Register of Shipping).
- TUV.
- UkrSEPRO.
- other.

ASKAYNAK has a wide product range that includes: coated welding electrodes, copper-plated welding wire, materials for repair and restoration works (Kobatek product line), materials for welding stainless steels, aluminium, cast iron, copper, etc.

We are a subsidiary of SCANVOGN — Scandinavia's leading manufacturer of enclosed trailers and mobile sanitation solutions for the construction and event industry.

CORE SKILLS:

Scanvogn is the Nordics' leading manufacturer of mobile solutions for the construction and events industry.

Our products include crew, office, and housing trailers as well as sales trailers, foodtrucks, toilet and shower trailers.

Throughout the years we have gained experience and skills that enable us to offer products of very high quality and comfort, alongside a high degree of flexibility for customized solutions.

We produce many of our components in-house and work closely with our suppliers to develop parts that ensure the best quality, design and functionality.

INNOVATION:

As the market changes, so do our customers' challenges, needs, and expectations. For the last 25 years, we have been first movers in our industry thanks to an ongoing dialog with our customers that allows us to introduce new and better solutions.

Scanvogn was the first Danish company to use panels with XPS insulation. We were also the first to feature a solid-cast roof for optimal strength and tightness.

In recent years, we have helped raise hygiene levels at festivals, thanks to our water saving and reliable vacuum systems.

ABOUT OUR PRODUCTION:

We are a team of 100 specialists with over 25 years experience in the construction and events industry. We produce many of our components ourselves and work closely with our suppliers to develop parts that optimize quality, design and functionality. This enables us to provide you with the best products, which all fully meet your expectations.

VISION:

Our vision is to contribute to our customers' success by offering products that meet the high demand for quality, comfort and flexibility posed by today's society.

When employees are offered comfortable and hygienic working conditions, their efficiency is increased, absence is reduced, and it is easier to retain good employees.

Likewise, guests' satisfaction is increased when they are offered clean and comfortable facilities for personal hygiene during events.
