TRADE FAIRS**

IEC, OCTOBER 17-19

**MINING &
MINERALS EXPO**

THE LARGEST TRADE SHOWS OF THE EXTRACTIVE INDUSTRY OF UKRAINE

The International Exhibition Center, as the main exhibition center in Ukraine, faced the question of whether to bow its head and forget about holding events, or to take matters into its own hands and, despite the war, continue to organize exhibitions, which are an effective tool for business development.

Today we can confidently say that we managed to continue working and holding popular business events.

FROM OCTOBER 17 TO 19, 2023, THE INTERNATIONAL TRADE FAIRS "OILGASEXPO" AND "MINING & MINERALS EXPO" TOOK PLACE IN THE TERRITORY OF THE INTERNATIONAL EXHIBITION CENTER.

The events were held as part of the **International Energy Business Forum "5E"** simultaneously with the energy trade shows:

- «EcoEnergy Expo»
- «Power Engineering for Industry»
- «Electro Install»
- «E-Comps+DigiTec».

Undoubtedly, the exhibitions were held thanks to the Ukrainian armed forces, which protect us from the Russian invasion.

SINCERE THANKS TO THE UKRAINIAN ARMED FORCES AND LOW BOW!

THE LARGEST TRADE SHOWS OF THE EXTRACTIVE INDUSTRY OF UKRAINE

UKRTRUBOIZOL LLC

We took part in the annual OILGASEXPO trade fair and Conference. It is a pleasure to be a speaker together with the heads of the large state companies Transgaz, Transnafta, Ukgazvydobuvannya, Ukrnafta. As always, our booth was fun and crowded. Many old friends, scientists, customers, contractors visited us. Someone of them even brought gifts: they treated us with their honey and more. We continue to work, develop new products, support Ukraine's energy independence.

For the seventh year in a row, the Burova Technika company participates in the International OILGASEXPO trade fair. Despite the difficult situation in the country, we do not stop working, developing and offering our services to potential customers. We are proud to announce the visit of the Ambassador of Canada to Ukraine Nataalka Cmoc to the booth of the Burova Technika in order to get acquainted with national oil service companies that work and develop in today's difficult realities.

OUR EXHIBITORS' REVIEWS

Today was the final day of the exhibition. Three incredible days of live communication between exhibitors and visitors.

Days of acquiring new contacts, meetings, new acquaintances, opening new horizons in cooperation. We held cool crash tests, presentations of new products, opened the UVEX brand to many exhibition visitors and showed its benefits "live"!

VII KYIV OIL AND GAS CONFERENCE

"Drilling. Intensification. Environment and Occupational Health and Safety"

On October 17, 2023 within the framework of the trade fair «OILGASEXPO» VII KYIV OIL AND GAS CONFERENCE "Drilling. Intensification. Environment and Occupational Health and Safety" was held.

Organizer - **Newfolk Oil&Gas**, supported by the **International Exhibition Center**.

This conference became an important platform for discussing the most pressing issues in the sector of oil and gas, as well as for sharing experience and knowledge. Informative and relevant reports and presentations helped participants and visitors to expand their horizons.

Among the guests there were Ambassador of Canada to Ukraine Natalka Cmoc, as well as managers and representatives of Ukrnafta, Ukrtransgaz, Ukrainian Geological Survey, Ministry of Energy of Ukraine, Beiken Energy Ukraine, Weatherford Ukraine, DTEK Naftogaz, Expert Petroleum, Zakhidnadraserwis and other leading oil service companies.

More than **25 speakers** and **200 delegates** created an atmosphere of active discussions and experience sharing.

The topics of the conference became especially relevant during the war, because the oil and gas sector depends on control over its own resources and increasing their production, which helps to ensure the stability and indomitability of the Ukrainian economy and encourages the industry to further development.

VI CONGRESS OF THE UNION OF DRILLERS OF UKRAINE

On October 18, 2023, the VI Congress of the Union of Drillers of Ukraine was held. 125 representatives from different regions of Ukraine took part in the work of the congress: from academic, university and industry science to enterprises of geological exploration, extraction and mining industries, environment, analytical centers, mass media.

The Chairman of the Board, Volodymyr Kalynovich, presented a report on the activities of the Union for the period 2018-2023. The president of the Union, Anatoliy Vdovichenko, reported on the main areas of activity for 2023-2028.

The main areas of activity of the Union were defined as:

- study and smart development of the unlimited, economic and environmental potential of the earth's bowels;
- the formation of a new scientific worldview of society based on modern geological knowledge about the processes taking place

in the earth's bowels, and their influence on global environmental changes and the life of society.

Based on the results of the discussion, the decision to approve the report and the main areas of further activity was made. The leadership of the Union was elected at the Congress. Anatoliy Vdovichenko was elected as the President of the Union, Volodymyr Kalynovich was elected as the Chairman of the Board, Vitaliy Vitryk was elected as the First Deputy Chairman of the Board.
