IN CASE OF AN AIR ALERT, PLEASE FOLLOW THE NEXT PROCEDURE

- 1. After arriving to the International Exhibition Center (hereinafter – IEC), please study the directions to the location of the civil defense shelters.** If it is not possible to find out the place of shelter on your own, ask the Organizers or the security of IEC
- 2. In case of an air alert, the alert system will be activated at IEC.** Also, we recommend installing the Kyiv Digital app on your electronic device to receive operational information about the air alert
- 3. Follow all the instructions of the Organizers and security during an air alert. Without panic, leave the stand or the place where you get the air alert signal.** Take with you documents, personal belongings and, of course, the Exhibitor's badge, which is a pass to the exhibition
- 4. Follow the designated routes to the shelter located in the basement of pavilion 1 (entrances 1A and 1C), pavilion 2 (entrance 2A) and pavilion 3 (entrance 3C) of IEC.** If necessary, we ask you to provide help and guide those who need it
- 5. During an air alert, the security service controls the entrance door and ensures only the exit of people from the pavilion. Visitors are not allowed into the pavilion.** After the exhibitors and visitors leave the exhibition area, the Organizer together with the security staff inspect the exhibition area and make sure that everyone has left the pavilion and is in shelter
- 6. It is possible to leave the shelter and return to the pavilion only after the air alert has been sounded, according to the relevant instructions of the Organizers**
- 7. After the air alert has been canceled, Exhibitors are required to return to their stands within 15 minutes, showing the Exhibitor badge at the entrance**
- 9. Visitors are allowed to the exhibition after 20 minutes after disarming the air alert if the Visitor's badge is available**

**EVERYTHING
WILL BE UKRAINE!!!**
