COMMUNTECH / ROADTECHEXPO

XXI International Trade Fair «COMMUNTECH»

XIV International Trade Fair «ROADTECHEXPO»

Visitors were able to get acquainted with an unprecedented in its exhibition scale exposition of equipment from such leading market players as ALFATEKS, BUDSHLYAKHMASH, AUTO-REGION, AVTEK, SPETSMASH, and TDS UKRSPETSTEHNKA. The guests were able to talk with the representatives of the permanent exhibitors: «MODUS», «YUROMASH», «UKRAVTOKOMPLEKT», «TEKHKOMPLEKT», «TRANS-AVTO-D», «PAK-TRADE», «VARZ», «ELVORTI», «DLIGHT», «VINTECHSOLUTIONS», «TECH-TRANS», «SMARTKOMUNAL», «KOBZARENKO PLANT», «PROMTECHSERVICE», «KYIV ENGINEERING PLANT», «ST-PROZORO», «WEST TRUCKS», «SCOUT UKRAINE», «AGROMASHINVEST», «TECHNOVECTOR», «JV KBT», «KERCHER», «DORMASH GROUP», «KREMENCHUK ROAD MACHINERY PLANT» (KREDMASH), «KARMELS». For the first time, the following companies have participated in this year's events: PROTEKT ENGINEERING, KOMPLEX, UVS MACHINERY GROUP, POLYTECHNOSERVICE, IBIS MOTOR and other companies.

COMMUNTECH / ROADTECH EXPO

This year, the exhibition featured companies that were the experts in the production of special purpose transport: SPLINE VTK and VIDI UNICOMMERCE.

All days of the exhibition, a show-demonstration «Incredible Capabilities of YANMAR Mini-Excavators» by AVTEK, MODERN TRUCKS LLC was held in the open area.

POST & DELIVERY EXPO UA

POST & DELIVERY EXPO UA – Special exposition within the framework of the COMUNTECH exhibition

This is the only event in Ukraine that allows companies to track current global trends in the postal industry and delivery sector and join the community of experts developing transport logistics!

AGROMACHINERY EXPO

International Trade Fair «AGROMACHINERY EXPO»

Within the framework of the International Trade Fair AGROMACHINERY EXPO, agricultural machinery, mechanization equipment for small agricultural enterprises and farms, equipment for grain processing and storage, equipment for humanitarian demining of agricultural lands were presented, and also, in cooperation with the partners of the humanitarian demining exposition professional conferences were held.

On October 15, 2024, the scientific and practical conference «Mine Action: The key to Ukraine's Safe Future!» was held, it was dedicated to the important topic, namely mine action as a fundamental component of the post-war reconstruction of Ukraine.

The conference participants joined their efforts to find solutions that will help make our lands safe, and also considered the role of humanitarian demining in the process of restoring infrastructure and the economy.

AGROMACHINERY EXPO

On October 16, the Ukrainian Association for Humanitarian Demining successfully held a scientific conference «Restoration of Lands and Soils after Demining» in Kyiv.

The event featured the presentation of the unique and extremely important social and economic project to restore war-damaged lands and the demonstration of the Prospector 3 XRF analyzer, which is capable of analyzing soils for heavy metals and other harmful components in 5 seconds. The conference brought together leading demining operators, charitable foundations, manufacturers, suppliers, as well as representatives of the public sector and community management bodies and gathered about 200 participants: members and partners of the Ukrainian Association of Humanitarian Demining, most Ukrainian mine action operators, the mine action team of the Ministry of Economy of Ukraine, the Polish Investment and Trade Agency, Ukrainian scientific institutes, as well as international organizations such as UNDP, UNOPS, Tetra Tech, UNHCR, Tony Blair Institute, International Organization for Migration, international demining operators HALO Trust, FSD, MAG.

The topics of the reports on the restoration of land after demining were presented by the Main Department of Mine Action, Civil Protection and Environmental Security of the Ministry of Defense of Ukraine. The main attention was focused on environmental challenges and steps to restore agricultural and natural areas after demining. Based on the number of conference visitors and their activity, the event aroused keen interest among experts from various sectors, in particular, mine action, agriculture, ecologists, and biologists.

XXI International Water Forum «AQUA UKRAINE»

On October 15, the Panel Discussion «Water Policy: Sustainable Solutions for Water Supply and European Integration Processes» was held, it was organized by the State Agency of Water Resources of Ukraine as part of the International Trade Fair «AQUA UKRAINE».

The discussion was attended by the representatives of the Ministry of Communities and Territories Development of Ukraine, the Ministry of Environmental Protection and Natural Resources of Ukraine, the Head of Mykolaiv Regional Administrative Organization, and the Deputy Head of Kryvyi Rih.

The focus of the first part of the panel discussion was on the issue of increasing the stability of water supply for victims of hostilities, in the hostilities zone and on the frontline territories. This problem requires a comprehensive approach. The government has approved the State Target Program for Integrated Water Supply of Territories Affected by Military Actions for the Period Until 2030, which was developed by the State Water Agency. In addition, international organizations are actively involved in solving this problem. Representatives of international donor organizations emphasized the need to attract investment in the modernization of water infrastructure, improve water monitoring systems, and bring Ukraine's standards in line with EU standards.

The second part of the panel discussion was devoted to the overview of the European integration processes of water policy, Ukraine's progress within the framework of the EU enlargement package, and key priorities.

XIII International Trade Fair «EUROBUILDEXPO»

Traditionally, manufacturers of concrete batching plants were presented at the exposition of the International Trade Fair «EuroBuildExpo».

The collective exposition of Finnish companies became one of the highlights of the exhibition. The Finnish companies were direct participants of the exhibition, took part in the conference and presented Finnish solutions of the East Office of Finnish Industry companies to support Ukraine (Janne Harjunpaa – Executive Director of the East Office of Finnish Industries): Peiko company – fast, convenient, reliable solutions for reinforced concrete (Yuri Tromsa – Head of Peiko Ukraine); fast, scalable, productive and sustainable prefabricated construction with Elematic (Matti Silvennoinen – Operation Director of Elematic); TELKO, LTD (supplier of polymer raw materials and additives), HIKINORO OY (manufacturer of cellulose-based floor and surface protection materials), LEOMUOVI OY (contract manufacturing from design to logistics), MOVAX OY (developer and manufacturer of excavator equipment for pile driving and foundation works with automatic control. Inventor of the patented modular side grip technology).

EUROBUILDEXPO

Currently, Ukraine is facing an unprecedented challenge – the reconstruction of destroyed infrastructure and housing. The question arises: is it possible to do this quickly, efficiently and using modern technologies? The answer is yes! That is why on October 15, the **magazine «ProfBuild» invited to join the conference «Industrial Technologies and Reinforced Concrete: A New Vector of Development»**, which became a platform for exchanging and discussing prospects and technologies in the reconstruction of Ukraine's infrastructure using industrial technologies and reinforced concrete. The event brought together leading experts to figure out how to restore the country on the basis of sustainable development and innovation.

EUROBUILDEXPO / W&D EXPO

The Master Class «WINDOWS, DOORS, SECURITY» was held each day at the Open Talk site of the EuroBuildExpo International Trade Fair. In conditions of increased danger associated with military operations, much attention was paid to the requirements for fire doors on escape routes and the requirements for

their installation, as well as ordinary «household requirements», using the example of sliding doors with new fittings from AXOR. Together with the WINKHAUS company, there were discussions of research in the direction of explosion-proof windows and how the certification of fire doors (certification in Ukraine and Europe) should and can be carried out, which already have certain initial confirmations, and what should be expected from changes in DBN B.1.1-7 :2016 «Fire Safety of Construction Facilities. General Requirements».

The show-demonstration **«The Innovative Future is Closer Than You Think – the Latest Construction Equipment and Technologies from BaumaGroup»** took place on the open area all exhibition days. The company supplies to Ukraine special attachment and components for construction machinery from the following manufacturers:

- OilQuick Deutschland KG,
- Hydraram B.V, Cernos Oy,
- Dappen Werkzeug & Maschinenbau GmbH,
- HGT Hydraulikgreifer-Technologie GmbH,
- Kemroc Spezialmaschinen GmbH,
- WESSEL-HYDRAULIK GmbH.

GRATITUDE

The organizer of the **EXHIBITION COMPLEX** — the International Exhibition Center — expresses its gratitude to partners, exhibitors and visitors.

The events definitely gave the push to the development of the business environment, to restore war-ravaged contacts and became a driving force for the further growth of the Ukrainian economy.

Once again, we thank everyone involved, we express great respect and we urge you not to stop and continue to work for the benefit of our state and our joint Victory.

***We can do everything because
WE ARE TOGETHER!***
