**MAY 28-30, 2024**

The war of the Russian Federation against Ukraine changed everything. The International Exhibition Center, as one of the leading organizers of business events in Ukraine, survived and has organized international exhibitions during the war for two years in a row.

A strong economy is one of the main prerequisites for our future victory. Today, many enterprises have lost their suppliers, some factories are damaged or destroyed and need new equipment and products to continue working. The exhibition is exactly the tool that will help to restore, support and develop the business.

ON MAY 28 - 30, THE XV INTERNATIONAL TRADE FAIR OF POLYMER PROCESSING PLAST EXPO UA '2024 WAS HELD IN THE TERRITORY OF THE INTERNATIONAL EXHIBITION CENTER

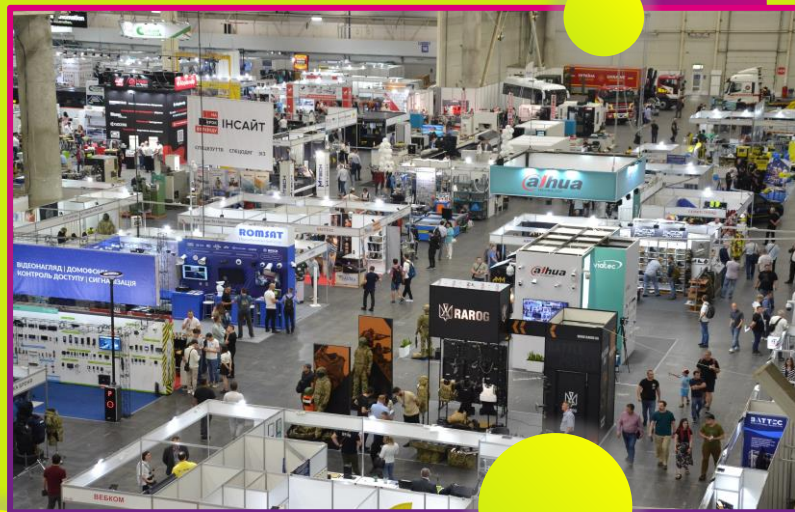

PLAST EXPO UA was traditionally held together with:

- INTERNATIONAL INDUSTRIAL FORUM
- trade fair ADDIT EXPO UA

Also, for the first time since the beginning of the war, the International Exhibition Center has held the exhibitions:

- EXPERT SECURITY
- PROTECTION TECHNOLOGIES/FIRETECH

All events took place at the same time on the same site.

We managed to hold exhibitions only thanks to the Ukrainian Armed Forces protecting us from the Russian invasion.

SINCERE GRATITUDE TO THE ARMED FORCES OF UKRAINE AND A LOW BOW FROM THE ORGANIZERS, EXHIBITORS AND VISITORS! TAKE CARE OF YOURSELF!

THE ONLY POLYMER PROCESSING EXHIBITION IN UKRAINE
