14-16,
2025

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

This year, the XXII International Energy Business Forum «5E», held on October 14-16, 2025, at the International Exhibition Centre, once again confirmed its status as the premier industry event in Ukraine.

In terms of its format, this congress and exhibition event is unique and has no parallels among exhibition projects in Ukraine.

BUSINESS PROGRAM

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

The synergy of industry exhibitions brought together numerous advanced technologies, modern equipment, and machinery at the IEC venue, covering all energy components: from energy resource extraction and production technologies to power generation, storage, transmission, distribution, and consumption.

The exposition showcased a wide range of electrical equipment for various voltage levels, power and electromechanical equipment, electronic devices, automation and electronic tools, energy storage systems, and backup power solutions applied across various industries and sectors.

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

Despite the ongoing challenges facing our nation, domestic and international businesses have demonstrated incredible resilience and a drive to implement innovations that are transforming Ukraine's energy landscape and ensuring the stability of the power system.

Exhibition participants did not only showcase their products but also paid significant attention to booth design concepts, content, and the use of interactive solutions. Such an approach typically strengthens a company's image, boosts demand for its products, and creates a functional exhibition space.

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

On October 14, the official opening of the International Energy Business Forum «5E», sectoral exhibitions and the 10th International Congress of Power Engineers was attended by:

Andrii KONONENKO — Deputy Secretary of the National Security and Defense Council of Ukraine;

Andrii GERUS — People's Deputy of Ukraine and Chairperson of the Verkhovna Rada of Ukraine Committee on Energy, Housing and Utilities Services;

Ruslan SLOBODIAN — NEURC Member;

Vitalii ZAICHENKO — Head of the Management Board of NPC "Ukrenergo";

Mariia MALAYA — First Deputy Head of the State Agency on Energy Efficiency and Energy Saving of Ukraine;

Mykhailo BUBNOV — General Director of Schneider Electric Ukraine;

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

Oleksandr SVETELIK — President of the International Council on Large Electric Systems (CIGRÉ) in Ukraine;

Ivan TKACHENKO — Head of Kyiv Global Expo Company;

Anatolii TKACHENKO — Director General of the International Exhibition Centre in 2000–2025.

XXII INTERNATIONAL ENERGY BUSINESS FORUM «5E»

In their welcoming speeches, the esteemed guests emphasized the importance and relevance of the exhibition event, which will contribute to determining priorities and technological solutions for the sustainable operation of all segments of the energy chain.

On the occasion of the tenth anniversary of the Congress of Power Engineers, a Letter of Appreciation was presented to Oleksandr Svetelik, the President of the International Council on Large Electric Systems (CIGRÉ) in Ukraine, for fruitful cooperation and valuable contribution to the organization and annual holding of the Congress.

Words of gratitude were expressed by Ivan Tkachenko, the Head of Kyiv Global Expo Company, and Anatolii Tkachenko, the Director General of the International Exhibition Centre (IEC) from 2000 to 2025.

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

The International trade fair of low-voltage electrical engineering and automation, «ELECTRO INSTALL '2025», which took place in Kyiv at the International Exhibition Centre on October 14–16, demonstrated positive growth dynamics.

Alongside related thematic projects, the «ELECTRO INSTALL» exhibition brought together global and domestic brands, as well as modern high-tech companies operating in the sectors of electrical engineering, cable and wire products, industrial automation, backup power, and lighting technology.

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

This year's exhibition confirmed that the most capacious and high-demand segment of the electrical engineering market plays a leading role in modern electrical systems and remains the most sought-after segment for manufacturing, commercial, and household operations. The large flow of visitors, along with the quantitative and qualitative profile of the exhibitors, demonstrated that businesses are ready to work for the long term to implement new solutions into the energy infrastructure.

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

The expositions of leading companies featured:

- circuit breakers;
- residual current devices (RCDs);
- starting and protective gear, switchgear;
- measuring instruments, voltage and current stabilizers, and converters;
- cable and wire products, cable management systems;
- busbars and electrical installation hardware;
- LED technology, automation tools and components;
- backup power devices.

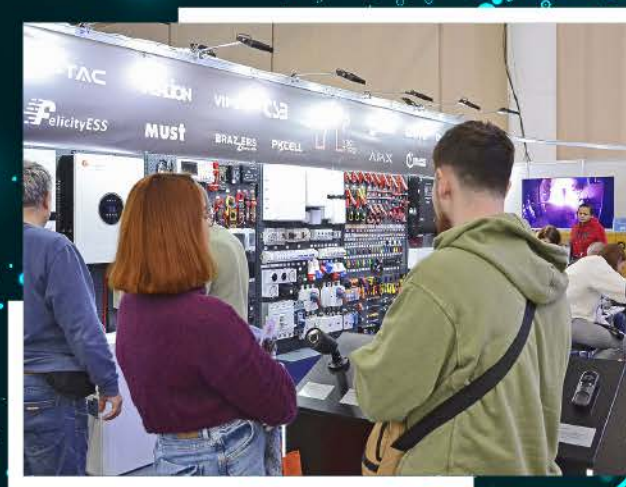

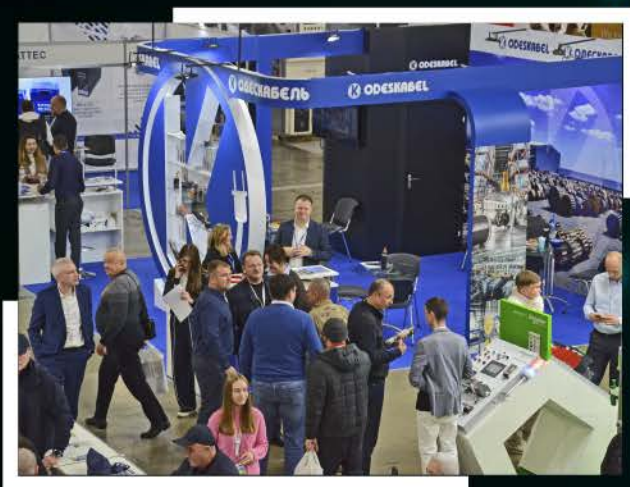

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

Due credit must be given to the domestic companies participating in «ELECTRO INSTALL '2025», which, in the realities of war, demonstrate their steadfastness, readiness to work, and commitment to seeking opportunities for growth and supporting the country's economic front.

It should also be noted that, despite the war, the exhibition featured leading foreign companies that are monitoring the electrical product market conditions in Ukraine and see great potential for their business in the country's future recovery.

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

AMONG THE EXHIBITORS

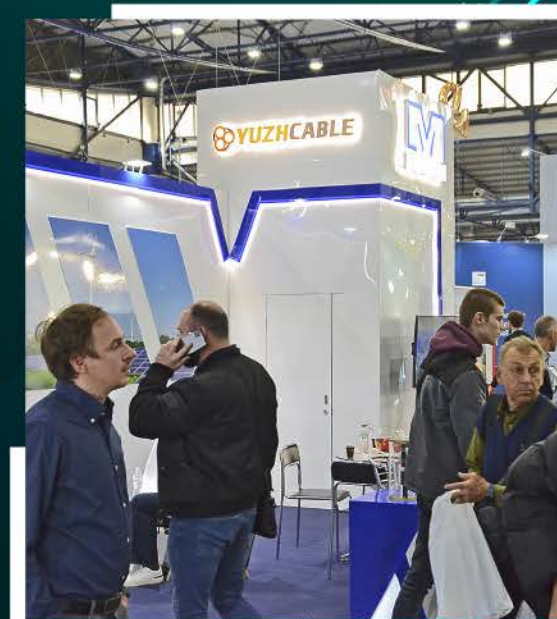

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

Traditionally, the «ELECTRO INSTALL» exhibition captured the attention of visitors with its vibrant booth designs, engaging displays, and physical product samples — ranging from residual current breakers with overcurrent protection (RCBOs) to high-capacity intelligent micro-processor devices and automation systems.

It is important to highlight the immense contribution of the companies to the organization and original design of their expositions, as well as their active engagement with partners, colleagues, and clients.

VII INTERNATIONAL TRADE FAIR «ELECTRO INSTALL '2025»

SINCERE GRATITUDE

**TO ALL EXHIBITORS, PARTNERS, AND VISITORS
FOR THE POSITIVE BUSINESS ATMOSPHERE AND FRUITFUL WORK.**

**"ELECTRO INSTALL '2025" HAS GAINED POWERFUL MOMENTUM
TO STRENGTHEN ITS LEADERSHIP POSITION,
IMPLEMENT NEW MARKETING STRATEGIES,
AND ATTRACT TOP-TIER PARTICIPANTS AND NUMEROUS VISITORS
FOR THE COMING YEAR.**

SEE YOU AT THE IEC ON OCTOBER 13–15, 2026!
