- **RUSLAN SLOBODIAN**, Member of the National Energy and Utilities Regulatory Commission
- **VITALII ZAICHENKO**, Head of the Management Board of NEC "Ukrenergo"
- **MARIIA MALAYA**, First Deputy Head of the State Agency on Energy Efficiency and Energy Saving of Ukraine
- **OLEKSANDR SVETELIK**, President of the International Council on Large Electric Systems CIGRE in Ukraine
- **MYKHAILO BUBNOV**, General Director of Schneider Electric Ukraine
- **ANATOLII TKACHENKO**, General Director of the International Exhibition Center (2000–2025)
- **IVAN TKACHENKO**, Owner of Kyiv Global Expo, event organizer

EXHIBITOR STATISTICS*

255
EXHIBITORS

FROM **12**
COUNTRIES

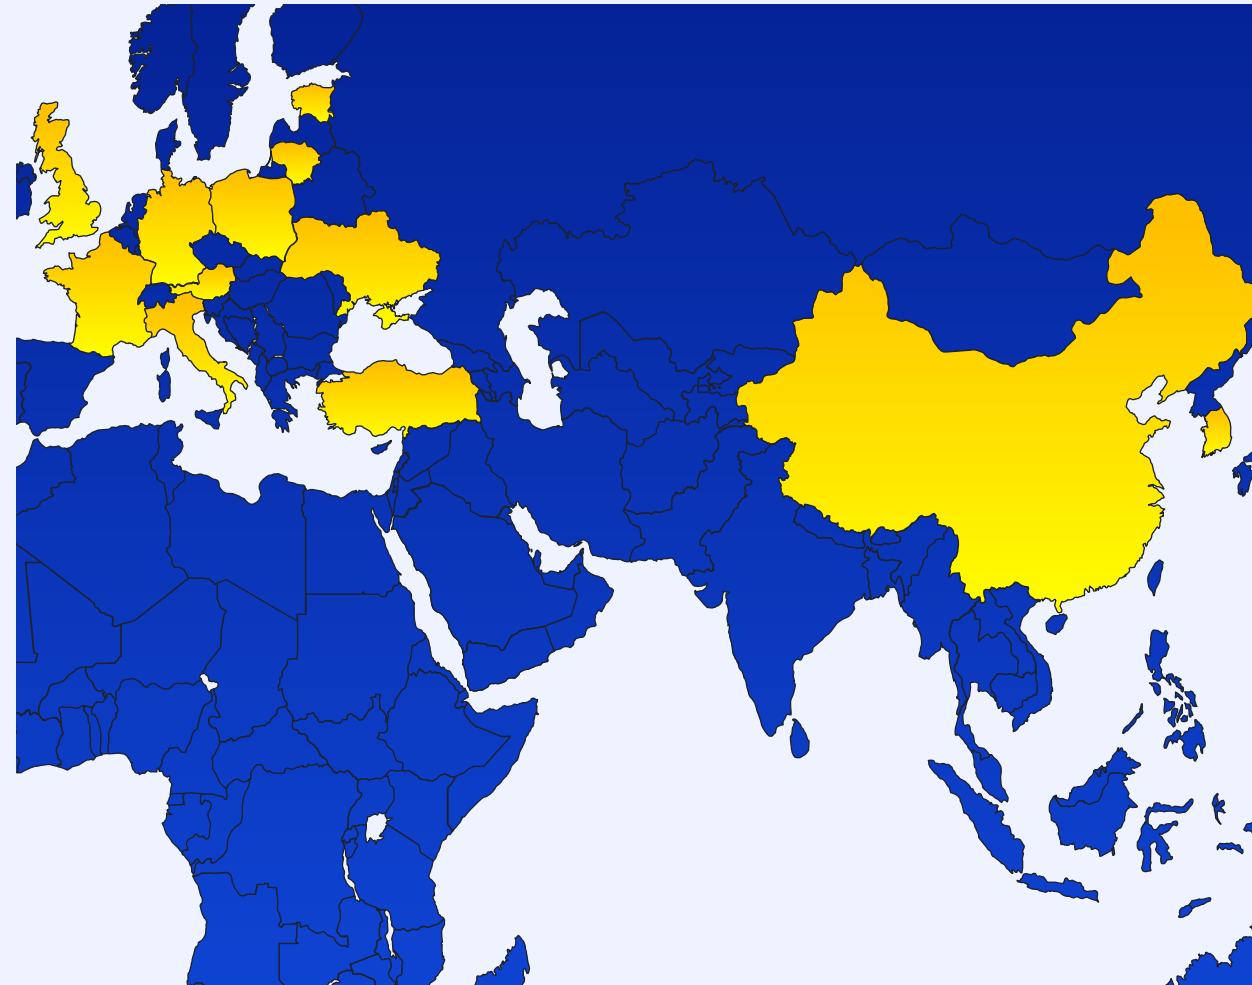

205
UKRAINIAN
COMPANIES

69
EXHIBITORS

TECHNOLOGIES, EQUIPMENT,
AND SERVICES FOR THE OIL, GAS,
AND OIL-REFINING INDUSTRIES WERE
PRESENTED

EXHIBITORS' GEOGRAPHY

Austria, Great Britain, Estonia, Italy, China, Lithuania,
Germany, South Korea, Poland, Turkey,
France, Ukraine

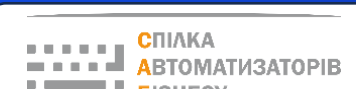

* Common indicators of the exhibition complex: OilGasExpo, Mining & Minerals Expo, Power Engineering for Industry, EcoEnergy Expo, Electro Install, E-Comps+DigiTec

OILGASEXPO'2025 PRESENTED:

- Technology, equipment, and services for well drilling, completion, and workover
- Equipment for tank farms, LNG terminals, oil and gas storage facilities
- Large diameter pipes and insulation
- Pipeline valves and fittings, actuators, and automation systems
- Measuring and control devices
- Gas regulation equipment and meters
- Laboratory equipment
- Energy and electrical equipment
- Systems and personal protective equipment, workwear, etc.

AMONG THE EXHIBITORS

VISITOR AND EXHIBITION AREA STATISTICS*

9 928

VISITORS

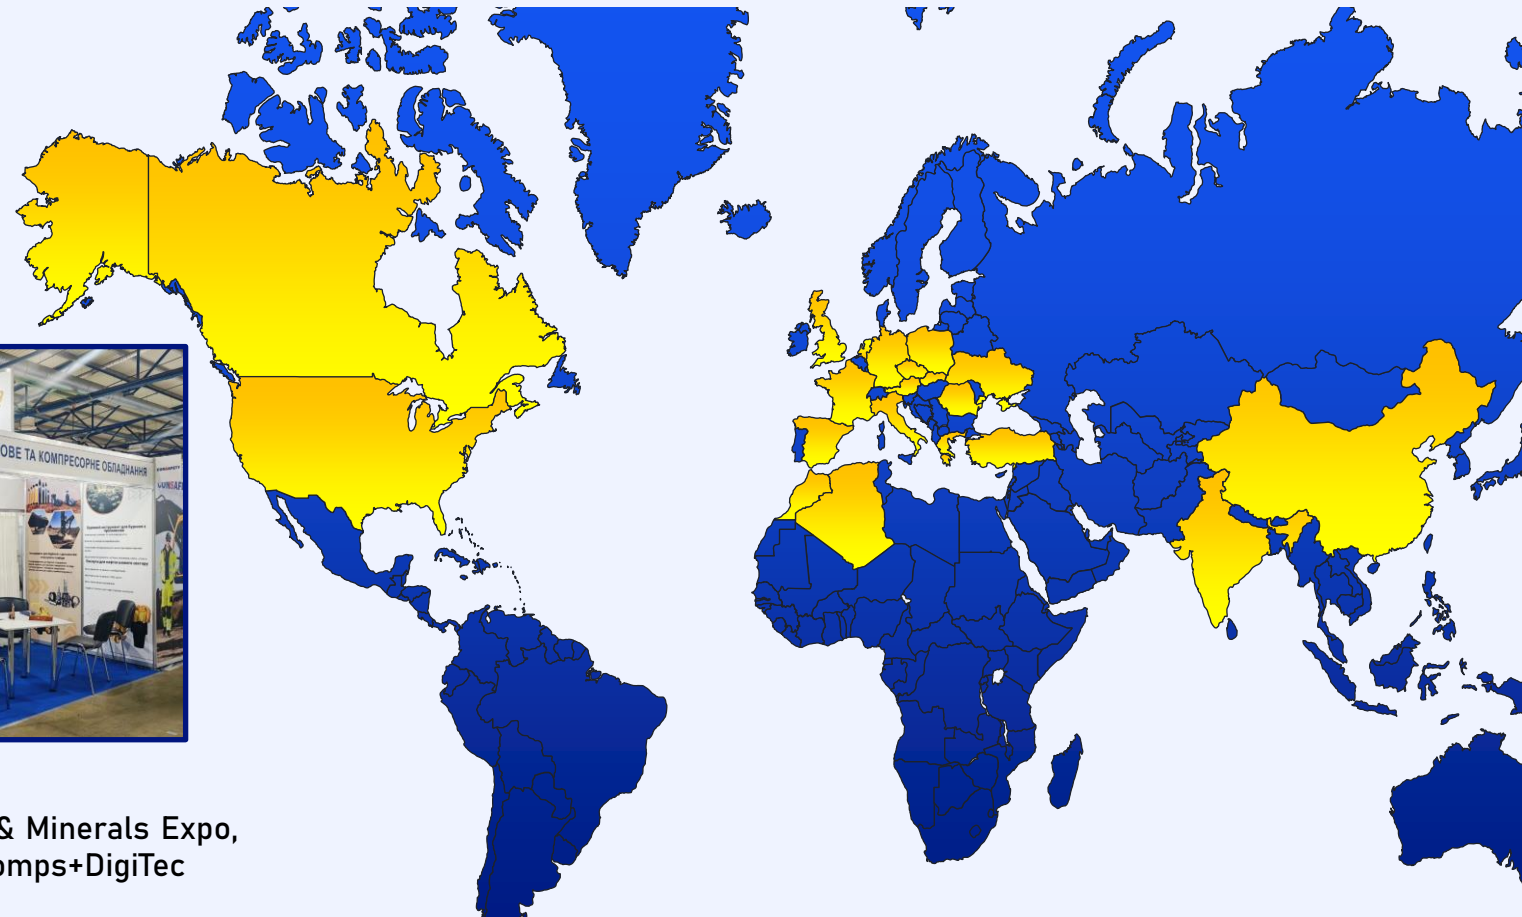

FROM 22

COUNTRIES

OVER 11 000 sq.m
EXHIBITION AREA

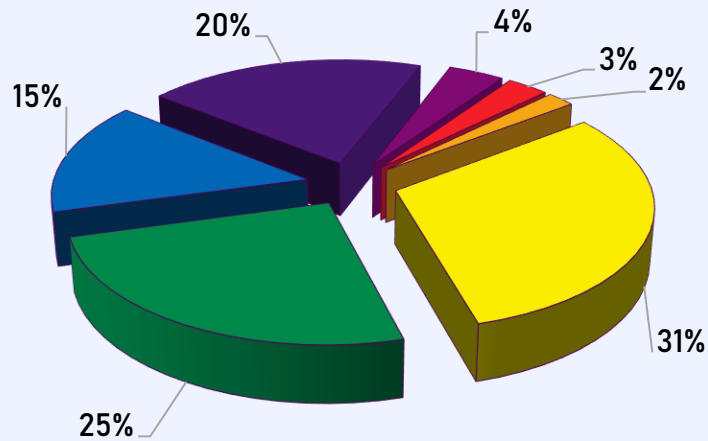

VISITORS' GEOGRAPHY

Algeria, Austria, Canada, China, Czech Republic, France, Germany, Greece, India, Italy, Kuwait, Morocco, Netherlands, Poland, Romania, Slovakia, Spain, Turkey, Ukraine, United Kingdom, USA

* Common indicators of the exhibition complex: OilGasExpo, Mining & Minerals Expo, Power Engineering for Industry, EcoEnergy Expo, Electro Install, E-Comps+DigiTec

OILGASEXPO'2025 VISITOR STATISTICS

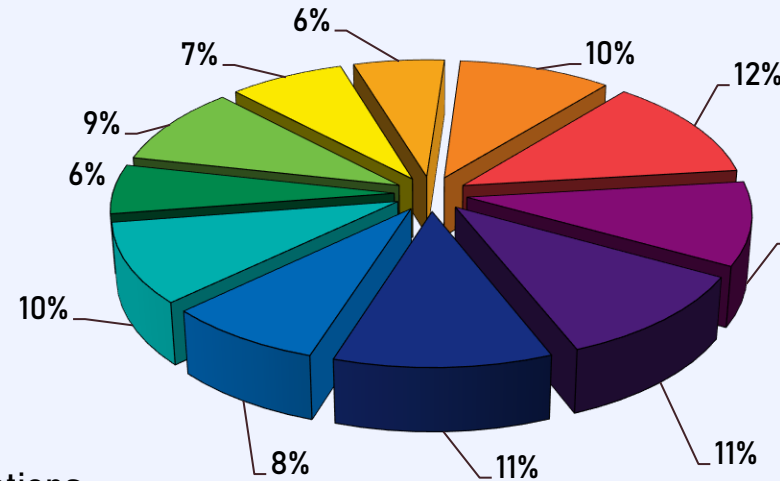

VISITOR AREAS OF INTEREST

- Drilling machines, complexes, and tools
- Oil and gas field machinery and equipment
- Equipment for well operation and repair
- Equipment for gas pumping, regulating, and distribution stations
- Equipment and fittings for oil and gas pipelines, oil depots, and gas storage facilities
- 3Corrosion protection for oil and gas industry equipment and pipelines
- Oil and gas processing technologies and equipment
- Petrochemical technologies and products
- Automation systems. Instrumentation and control
- Technogenic, fire and environmental safety
- Other

VISITORS BY POSITION

- Top Management / Business Owners
- Engineers and Technical Specialists
- Managers (Sales, Development, Project)
- Middle Management / Heads of Departments
- Science and Education (Students, Lecturers, Scientists)
- Specialists and Experts (Non-technical)
- Other

BUSINESS PROGRAM

IX KYIV OIL AND GAS CONFERENCE OF NEWFOLK Drilling. Intensification. Ecology and Labor Protection

The event gathered over 260 participants and became a key platform for discussing the industry's challenges.

The focus was on: production stability, modernization of production facilities, digitalization of processes, reduction of environmental impact, and employee safety.

A separate discussion topic concerned the strikes on oil and gas infrastructure, which daily test the resilience of the entire state energy supply system.

AMONG THE SPEAKERS WERE: the top management of the State Service of Geology and Mineral Resources of Ukraine, UkrGasVydobuvannya, Ukrnafta, Zakhidnadraserwis, DTEK Oil&Gas, as well as service and manufacturing companies, and leading oil and gas universities of Ukraine.

JOINT MEETING

of the Union of Drillers of Ukraine and Industry Associations
Topic: "Rock-Destroying and Metalworking Tools: Manufacturing and Application Techniques and Technology"

The event was dedicated to the wide range of relevant issues, specifically:

- Development of the drilling industry and implementation of innovations.
- Modernization of tools and equipment.
- Strategic vision for personnel policy in oil and gas production
