## POST SHOW RELEASE

INTERNATIONAL TRADE FAIR  
FOR PROCESSING POLYMERS

INTERNATIONAL  
EXHIBITION COMPANY

For the third consecutive year, despite the ongoing war, International Exhibition Company LLC organizes powerful International Exhibitions.

The path to our victory lies through a strong economy and the Armed Forces of Ukraine!

Today, Ukrainian enterprises need support: many have lost suppliers, productions are damaged and await new equipment, technologies, and products.

It is the exhibition that is called to be that powerful lever which will help restore and support Ukrainian business!

From May 27 to May 29, 2025, the XVI International Exhibition PLAST EXPO UA'2025 took place on the territory of the International Exhibition Center.

PLAST EXPO UA'2025 was traditionally held jointly with the INTERNATIONAL INDUSTRIAL FORUM and the exhibitions:

- ADDIT EXPO UA
- EXPERT SECURITY
- PROTECTION TECHNOLOGIES/ FIRETECH

We were able to hold the exhibitions exclusively thanks to the unbreakable spirit and bravery of the Ukrainian Armed Forces, who stand guard over our peace and freedom.

On behalf of the organizers, participants, and visitors of the exhibitions, we express our sincere gratitude and deep respect to the Armed Forces of Ukraine! Take care of yourselves, our heroes!

Joint holding of Plast Expo UA, International Industrial Forum, Addit Expo UA, Expert Security, and Protection Technologies / FIRETECH once again confirmed the effectiveness of a comprehensive approach to organizing industry events.

Despite the different themes of the events, their combination demonstrated the close connection between industrial technologies, security, and innovations, which together ensure the efficiency and sustainable development of production processes.

The complex of exhibitions attracted not only industry representatives but also government officials responsible for the country's economy and security.

Among the visitors to the expositions were:

- Deputy Head of the Verkhovna Rada Committee on Economic Development – **DMYTRO KYSLYLEVSKYI**
- Minister of Strategic Industries of Ukraine – **HERMAN SMETANIN**
- Head of the State Emergency Service of Ukraine – **ANDRII DANYK**
- Deputy Minister of Economy of Ukraine – **ANDRII TELIUPA**
- General Director of the Federation of Employers of Ukraine – **RUSLAN ILICHOV**

FROM **5** COUNTRY

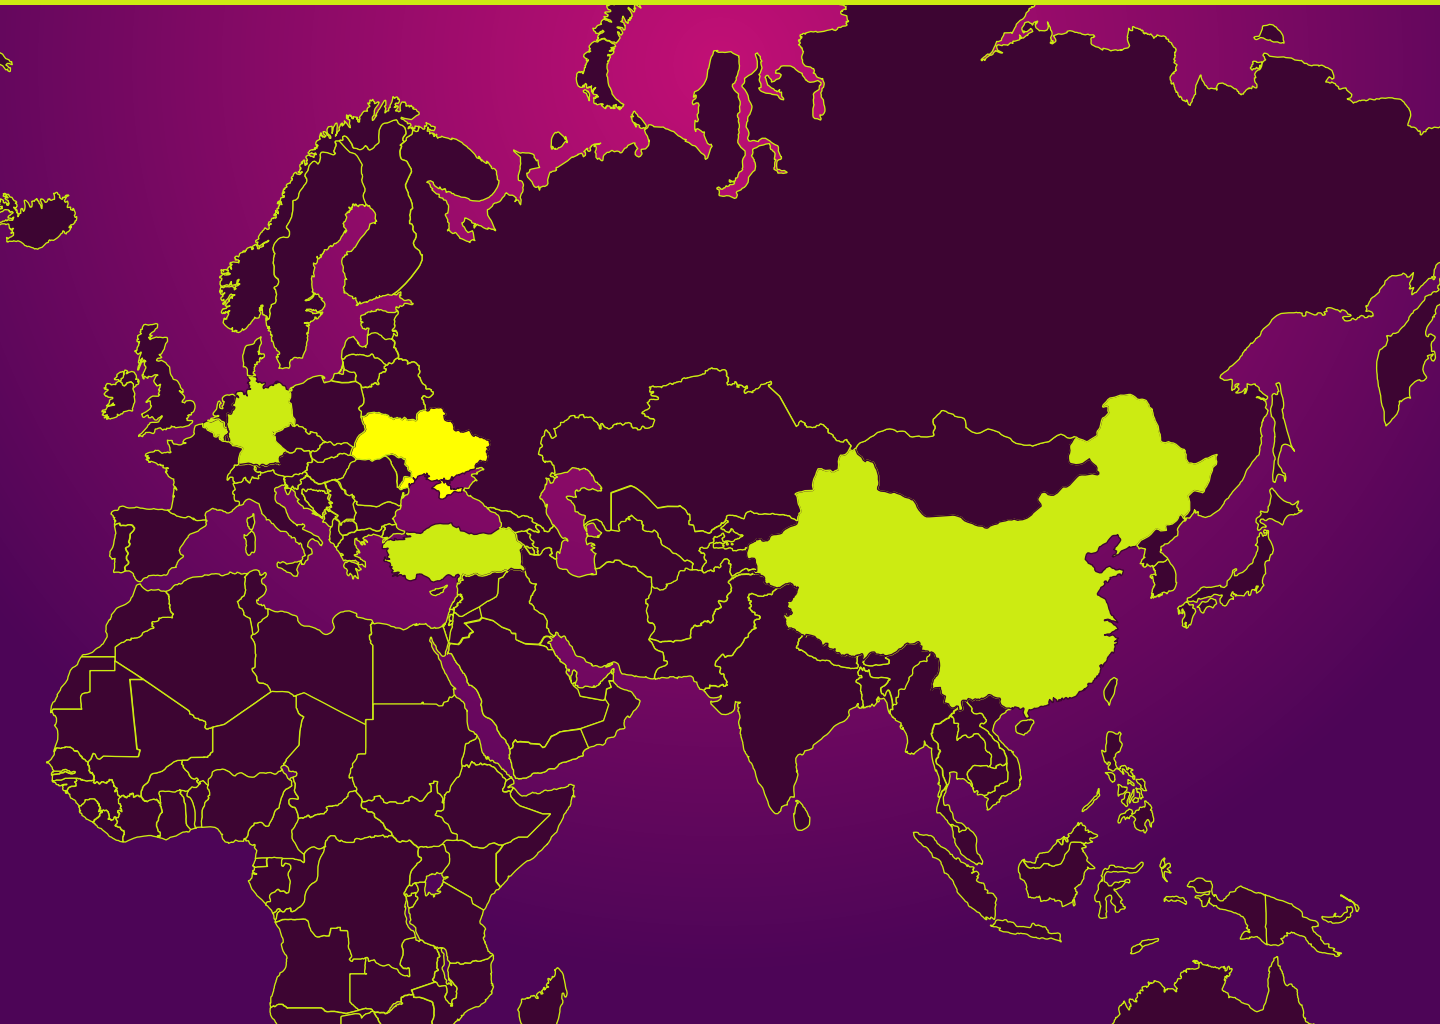

TECHNOLOGIES, EQUIPMENT AND SERVICES FOR THE POLYMER INDUSTRY WAS PRESENTED BY

**75** EXHIBITORS

\* The total number of exhibitors of Plast Expo UA, Addit Expo UA, Industrial Forum, Expert Security and Protection Technology / FIRETECH

## GEOGRAPHY OF EXHIBITORS

Belgium, China, Germany, Turkey, Ukraine

PLAST EXPO UA'2025 PRESENTED:

- Thermoplastic machines
- Press molds and stamps
- Extrusion lines
- Peripheral equipment
- Recycling equipment
- Raw materials. Supplements. Dyes
- Auxiliary equipment
- Polymer products , etc.

AMONG PLAST EXPO UA EXHIBITORS:

## THE ONLY POLYMER PROCESSING EXHIBITION IN UKRAINE

Companies "STANKOPLAST" LLC, "MI-PROM" LLC, and "BDZHILKA" PVKF took an active part in the exhibition, presenting modern equipment and demonstrating its operation directly at their stands.

Thanks to this, visitors had the opportunity not only to receive consultations from company specialists regarding equipment characteristics but also to see it in live operation.

The result was not long in coming: all three companies successfully sold injection molding machines and various related equipment directly from their exhibition stands.

Congratulations to our participants!

Such an example confirms that an exhibition is not only a platform for presentations but also a powerful tool for business development, strengthening partnerships, and real sales growth.

## STATISTICS ON VISITORS OF PLAST EXPO UA

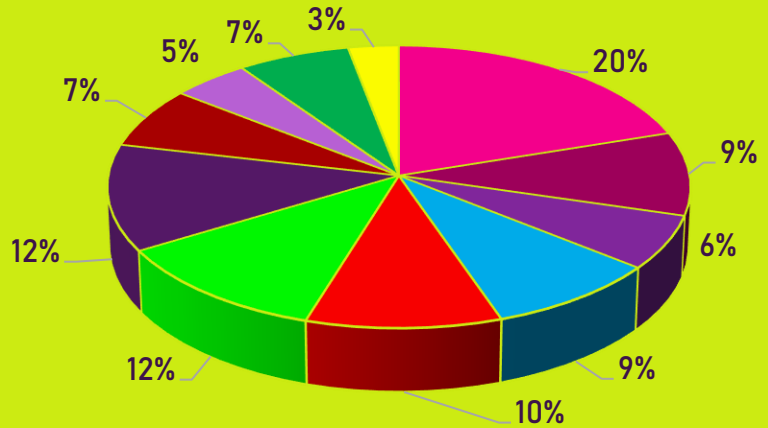

### VISITORS BY POSITION

### VISITORS BY ACTIVITY

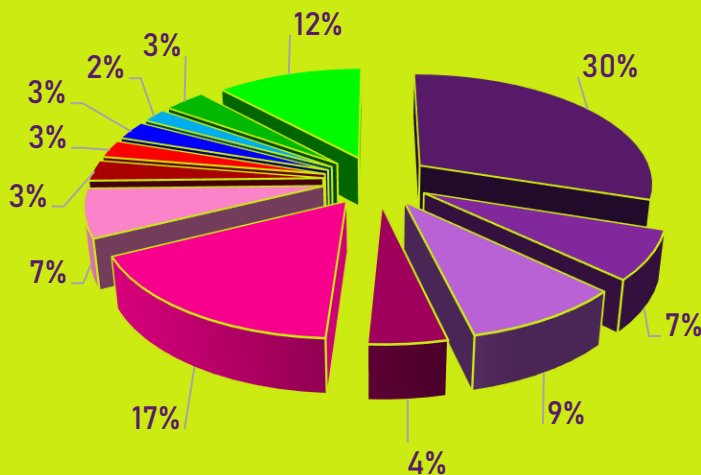

TOPICS THAT VISITORS WERE INTERESTED IN

- Technologies and equipment for plastics production and processing
- Thermoforming equipment
- Machines for production of foam plastics and processing of reactive plastics
- Auxiliary equipment
- Equipment for plastic waste processing
- Raw materials and supporting materials
- Polymer and composite materials
- Structural plastics
- Chemical fibers and threads
- Innovative and engineering services
- Other

VISITORS BY FIELDS OF ACTIVITY

- Processing of polymers, products
- Construction
- Chemical industry
- Food industry
- Mechanical engineering, electrical engineering
- Packaging, advertising industry
- Housing and municipal economy
- Furniture industry
- Manufacturing of cosmetics, pharmaceuticals
- Medicine and prosthetics
- Agriculture
- Other

## BUSINESS PROGRAM

On May 28, 2025, within the framework of the PLAST EXPO UA exhibition, 2 thematic seminars were held:

- Overview of Polyolefins and PVC Markets
- Law and Waste: Legal Challenges and Solutions.

The seminar "Overview of Polyolefins and PVC Markets" was organized by "Khimim-Courier" agency. Within the framework of the event, the following were discussed:

- current market trends and risks;
- regranulate market;
- issues of logistics and customs clearance;
- market forecasts.

The seminar "Law and Waste: Legal Challenges and Solutions" was organized by the Office of Sustainable Solutions and the PAEW Association. The following issues were discussed during the event:

- Waste Management. Classification. Accounting
- Permits. Waste Sales. Reuse
- Medical Waste
- Accounting

The conducted events generated significant interest among specialists in the polymer industry, gathering over 150 participants, including representatives from leading enterprises, scientific institutions, and public organizations.
